Sub: Press Release - Inox Wind signs additional deal for SECI 50 MW capacity with Adani Green Energy

Dear Sir/ Madam,

Pursuant to Regulation 30 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, we wish to inform you that the Company has signed an additional deal for SECI 50 MW capacity with Adani Green Energy. Please find enclosed a copy of Press Release being issued by the Company in this regard.

We request you to please take the above on record.

Thanking You

Yours faithfully,
For **Inox Wind Limited**

Deepak Banga
Company Secretary

PRESS RELEASE

Inox Wind signs additional deal for SECI 50 MW capacity with Adani Green Energy

- **Project comprises of 25 Nos. of its latest 2 MW Wind Turbines**
- **Builds on our already strong partnership with Adani Green Energy in the renewable sector**

Noida, October 16, 2019: Inox Wind, one of India's leading wind energy solutions provider, has closed a deal for sale of a 50 MW wind power project at Dayapar, Kutch in the state of Gujarat in which Adani will be the strategic investor. This project is part of the capacity won under SECI bids for wind power projects connected on the central grid. These 2 MW Wind Turbines have one of the highest swept areas that make it ideally suited to maximize returns in low wind areas. Inox Wind's Kutch site would become one of the largest wind farms in India post execution of capacities won in different rounds of SECI & state auctions.

Inox Wind, apart from the above, has already commissioned 166 MW of wind projects for Adani. This new deal has been signed by Adani reposing their confidence in Inox Wind.

As part of this deal, Inox Wind will also provide long term operations and maintenance services.

ABOUT INOX WIND:

Inox Wind is India's leading wind energy solutions provider servicing IPPs, Utilities, PSUs & Corporate investors. Inox Wind is a fully integrated player in the wind energy market with three state-of-the-art manufacturing Plants in Gujarat, Himachal Pradesh and Madhya Pradesh. The Plant near Ahmedabad (Gujarat) and Barwani (Madhya Pradesh) manufactures Blades & Tubular Towers while Hubs & Nacelles are manufactured at the company's facility at Una (Himachal Pradesh). Inox Wind's manufacturing capacity stands at 1,600 MW per annum.

IWL manufactures key components of WTGs in-house to maintain high quality, most advanced technology, reliability and cost competitiveness. IWL has obtained ISO 9001:2008, ISO 14001:2004, OHSAS 18001 and ISO 3834 certifications for its management systems pertaining to manufacturing, installation, commissioning and O&M of wind turbines. Inox Wind offers complete end to end solutions from concept to commissioning. Besides manufacturing and supply of WTGs, Inox Wind offers services including wind resource assessment, site acquisition, infrastructure development, erection and commissioning, and long term O&M of wind power projects.
