

Introducing the new symbol of our energy

To all our esteemed Customers, Stakeholders, Business Partners, and Associates,

INOX Wind Limited, a key part of the INOXGFL Group, has been the driving force in India's wind energy landscape. Since our inception, we've grown into one of the country's leading end-to-end wind energy solutions providers.

Today, we're proud to introduce our new logo – a mark shaped by motion and driven by progress. It reflects the scale we've built, the momentum we carry, and the future we're ready to lead. It is a new visual identity, grounded in the same values: reliability, innovation, and sustainable impact.

Sustainable

Reliable

Limitless

Growth

Innovation

Wordmark INOX in bold portrays brand personality as reliable and robust. Angular incline illustrates our commitment to fast paced growth

The blue gradient symbolizes momentum, direction, and the boundless force of wind – always in motion, always driving change.

The two arrows moving in the right direction symbolise progress and forward momentum. They come together at the 'X', representing united collaboration and growth.

A unified brand identity for a Sustainable Future.

We're committed to creating lasting value for everyone who walks this journey with us through better offerings, broader reach, and deeply sustainable practices. Thank you for your continued trust. We look forward to building the future together.
